

# Bisbee Connects: CPP Highlights Q4 2025

## POWERING PROGRESS

Freeport is committed to keeping the community informed about operations and fostering open and ongoing dialogue to develop solutions and address issues. Our Community Partnership Panel (CPP) meetings are one way for us to share updates and solicit input from the community. This newsletter provides updates from our recent meeting.

## Company Updates

**"As a leading global supplier of copper and other metals with large-scale production, significant reserves and resources and an attractive pipeline for future growth, we are focused on the important role we play to provide copper, gold and molybdenum reliably and responsibly to a world with growing demand for metals."**

**- Kathleen Quirk, President and Chief Executive Officer**

## Freeport Reports Third-Quarter and Nine-Month 2025 Results

### The Quarter in Copper

- U.S. copper cathode prices are set through open market trading on Comex (CMX), and usually align closely with prices on the London Metal Exchange (LME) and Shanghai Futures Exchange (SHFE).

- On July 30, the U.S. Administration announced 50% tariffs on semi-fabricated copper products (like rod, wire, tube, plate), but no tariff was placed on copper cathode.
- The market experienced significant copper price swings driven by tariff expectations and surging demand from AI/data centers. The U.S. price base retreated quickly towards global price levels after no tariffs were applied.
- Copper remains critical for electrification, AI, EVs, and grid infrastructure. Long-term fundamentals are strong despite current volatility.

## Fortune AIQ 50

Freeport has been named one of the top companies in the Fortune 500 when it comes to generating significant and measurable impact using artificial intelligence.

- The company ranked 31st out of 50 companies in the first annual Fortune AIQ 50 ranking.
- Freeport finished second in the energy sector. The publication ranked 18 sectors across Fortune 500 firms.
