Freeport-McMoRan Foundation Announces 2021 Globe-Miami Community Investment Fund Grant Recipients

PHOENIX, AZ, November 8, 2021 — Freeport-McMoRan is pleased to announce the Freeport-McMoRan Foundation has awarded nearly \$2.8 million to 39 projects in Arizona, Colorado and New Mexico through our Community Investment Fund process.

Recipient organizations will receive their monetary awards and be recognized by members of the Community Investment Committee during grant presentations this fall.

“The COVID pandemic and other disruptive events over the past 18 months have affected how we all view and achieve well-being, as well as the need to think more purposefully about how we help to create individual, family and community resiliency,” said Tracy Bame, President, Freeport-McMoRan Foundation. “An important part of this effort is the ability to work with our program partners to understand the impact of each project so we can collaborate with a broad range of community stakeholders to address gaps in services, resources and assets needed to support the well-being and resilience of people and communities over time.”

The most effective investments stem from collaboration. The Freeport-McMoRan Foundation works with a range of committed partners throughout the investment process. The Foundation’s new partnership with True Impact provides a highly supportive application process that allows organizations to think through the impact of their project in the community.

Where there is a Community Investment Fund, local leaders representing diverse organizations and two to three Freeport-McMoRan representatives decide how funds are awarded. These community leaders are selected by members of the local Community Partnership Panel, a stakeholder engagement process established by Freeport-McMoRan more than 15 years ago to foster open and ongoing dialogue with the community. The process allows the company and the community to work together to develop thoughtful solutions that address community needs.

Since 2013, more than \$2.2 million has been invested through the Freeport-McMoRan Foundation Community Investment Fund in Globe-Miami. The funds have gone to programs and projects that help foster sustainability and reduce dependency on any single industry by supporting initiatives that build community resilience and capacity. In 2021, \$300,000 was awarded to the following grant recipients:

City of Globe

Globe Community Center Swimming Pool – \$250,000

The reopening of the Community Center Pool creates recreational opportunities for residents while also bringing back to life an important community asset.

Gila House

Gila Safe Haven Domestic Violence Home – \$32,500

The only resource for domestic violence victims in the region, Gila Safe Haven provides a safe and affirming environment for anyone fleeing violence where they can live peacefully and pursue vitality.

Monsoon Youth Education
***Sharing is Caring* – \$17,500**

Monsoon Youth Education will create community transformation by amplifying young people's voices and encouraging creative expression to help youth realize they have a role to play in community development.
