

COMMUNITY PARTNERSHIP PANEL

Meeting Notes Summary

Fort Madison

May 16, 2022

Commented [JT1]: Add date

Purpose

The [Community Partnership Panel](#) is hosted by Freeport-McMoRan to keep the community informed about operational activities and to foster open and ongoing dialogue to develop thoughtful solutions and address community issues.

Industry / Business Update

For the most recent company financial information, please visit: [Freeport-McMoRan Investor Center](#). Access the company industry / business update video from Steve Higgins, Freeport-McMoRan Vice President, and Chief Administrative Officer-Americas, [here](#).

Freeport-McMoRan Climate Change Strategies

Freeport-McMoRan's climate strategy pillars include reduction, resilience, and contribution. Our goal is to reduce greenhouse gas emission intensity in the Americas by 15% per metric ton of copper cathode by 2030 from our 2018 baseline. We aspire to participate and positively contribute to a 2050 net zero economy.

At Freeport, we are working to enhance our resilience to both physical and transitional risks associated with climate change for our operations, our host communities, and our stakeholders. This includes working to analyze and prepare for extreme weather events, water stress and other climate change impacts. Following completion of a recently completed physical climate risk analysis, we identified four main themes that we aim to integrate into our climate resiliency strategy going forward. These include wet extremes, heat extremes, emerging water stress, and sea level rise. At present, we plan to focus our attention on those regions and risk factors that have emerged as the highest priority from this initial screening assessment of physical climate risks. These include coastal flooding analysis and precipitation analysis at all operating sites to help inform our designs, decision making and collaboration with stakeholders. We will also continue working closely with host communities to help support and enhance their resilience to potential physical risks related to climate change. Visit [Freeport-McMoRan Inc. \(fcx.com\)](#) to learn more about our 2020 climate report and strategies.

Climax Fort Madison was awarded a Facility Safety Excellence Award by the American Chemistry Council and completed emergency preparedness exercises.

Environmental completed phase 2 of the Wastewater Treatment upgrade, implemented UAV (drone) monitoring of the facility, and initiated a new Environmental Significant Risks program for communicating risks to employees.

Community Engagement / Development Update

The 2022 Social Investment Funding schedule:

- Letter of Intent (LOI) - Cybergrants
