

COMMUNITY PARTNERSHIP PANEL

Meeting Notes Summary

Green Valley / Sahuarita

February 16th

Purpose

The [Community Partnership Panel](#) is hosted by Freeport-McMoRan to keep the community informed about operational activities, and to foster open and ongoing dialogue to develop thoughtful solutions and address community issues.

Industry / Business Update

2023 Sierrita Operation Strategy

- Focus on Safety
- Parcel 30 Update
 - Hauling down Duval Mine Road expected to be completed by the end of February
 - Anticipated project completion / grand opening of park mid-May
- New Technology
 - Ford Lightning
- New Mine Manager – Grant Egginton

Drilling Program

Sierrita operations will be conducting a hydrogeological and geotechnical study of our property beginning in the first quarter of 2023

- As this occurs, drill rigs may be visible from McGee Ranch Road and the Montana Vista neighborhood in Green Valley
- We expect the drilling to be completed in the second half of 2023 and are working with our contractors to mitigate any minor impacts such as dust, noise and sound that may occur

New mitigation wells project is underway to replace an older mitigation well with a new well on company-owned property in the West Desert Trails area

- This is continuation of an effort that began in June 2006 when Sierrita signed a Mitigation Order on Consent (MOC) with the Arizona Department of Environmental Quality
- Completion of three new Point of Compliance (POC) wells along the east face of the Sierrita tailings is expected by the end of the year

Sierrita Employment Update

Current employment opportunities include diagnostic electrician, mill repair employee, and mill maintenance helper.

Sierrita	Current
Employment	1,240
Vacancies	100
Contractors	227

Sierrita Environmental Update

- Sierrita achieved zero reportable dust events in 2022
- The last time Sierrita had no reportable dust events was in 2007
- Congratulations to the tailings group and the larger dust control team!
- An excellent trend
 - Overall trend has been consistently down for the last five years
 - This shows that our dust control efforts have been both effective and consistently improving
